MEMORANDUM FOR THE RECORD

At this morning's NSC meeting, after my briefing on Indonesia, there was a long discussion of the Indonesian question. It was decided to set up a "high-level, but small group composed of State, Defense, CIA, and possibly ICA" to study all possibilities in the Indonesian situation. I said we would report fully to such a group all the operations we had in hand. I mentioned this development to Walter Robertson during the conference which General Cabell, Frank Wisner and  were having with him on this subject.
